Information Security Solutions Europe 2015 to Co-Locate with the Open Identity Summit

10th – 11th November 2015, Hotel Palace Berlin, Germany

Information Security Solutions Europe (ISSE 2015), Europe's leading independent, interdisciplinary security conference and exhibition, today announced that the annual event will this year co-locate with the Open Identity Summit, at the Hotel Palace Berlin, Germany, on 10th and 11th November 2015.

More than 400 delegates representing private and public sector organisations from across Europe will attend ISSE 2015 and the Open Identity Summit. They will have the opportunity to attend and participate in high-level keynote presentations, seminars, workshops and panel debates, focusing on important issues relating to cybersecurity, cybercrime, e-identity, cloud computing, open source, data privacy and protection, end-to-end encryption, trust services and regulation.

David Goodman is the Executive Director of ISSE 2015 event partners EEMA comments on the reason for co-locating the two major events: "EEMA and the other ISSE 2015 organisers recognised the synergies and shared objectives with the Open Identity Summit from previous years. Consequently we see the benefits in co-locating as a win-win, but particularly for those delegates who would otherwise want to attend both events."

Organised by Revolution Events and hosted by EEMA and TeleTrusT, ISSE 2015 is supported by Adobe, SerNet, Cryptomathic, Secunet and G+H Netwerk-Design. Event Director at Revolution Events, Deborah Puxty-Ward states: "By choosing to co-locate ISSE 2015 and the Open Identity Summit we are able to offer delegates and sponsors fantastic value, by giving them the opportunity to attend two of Europe's most important events in the identity and security calendar in one place."

For sponsorship opportunities, media partnerships and to register interest in attending ISSE 2015 and the Open Identity Summit please contact Deborah Puxty-Ward at Revolution Events on Tel: +44 (0)1892 820 936 or Email: deborah.puxty@eema.org

About ISSE

Information Security Solutions Europe (ISSE) was founded in 1999 as an initiative of the European Commission Directorate General Information Society. The sixteenth annual ISSE conference will take place in Berlin, Germany on 10th and 11th November 2015 and is supported by the European Commission, EEMA, ENISA, TeleTrusT and The European Security Innovation Network.
